

Learning Safety the Natural Way, A Children's School Program

Geared toward students from kindergarten through fourth grade, this 7-minute video and workbook effectively teaches students about natural gas safety.

Natural Gas – Your Invisible Friend

In this 14-minute video, student reporters launch an investigation about natural gas. The students find out how natural gas is used in a science lab, popcorn plant and pizza parlor. These real-life situations teach children about exploration, distribution, natural gas vehicles and what they should do if they smell natural gas. Included with the video is a workbook for children in grades three through six.

Careers in the Natural Gas Industry

Today, the natural gas industry offers a wide variety of career opportunities. Learn valuable tips for a successful job interview and develop skills to assist you in your job search.

Yes! I am interested in having a representative from NJNG address my organization.

Speakers' Bureau Presentations

Whether you're looking for a luncheon speaker, classroom presentation, guest lecturer or any opportunity for your group to learn about energy, New Jersey Natural Gas (NJNG) has Speakers' Bureau presentations for every age and interest. To arrange a presentation, contact Customer and Community Relations at 732-938-1035 or speakers@njng.com.

Conserving Energy in Your Home

Saving on your energy costs is easy with NJNG's conservation and high-efficiency rebate programs. Learn about new tools and resources to help you conserve even more. Our no- and low-cost tips can help reduce your energy bills while you stay more comfortable at home.

A New Spin on Energy Savings

This fun, interactive game promotes audience participation. It includes a prize wheel filled with information on rebate programs, energy assistance and no- and low-cost tips to help reduce energy bills. The game can be customized for all ages and features prizes for audience members.

Energy Lingo

Enjoy the fun of Bingo while learning about conservation, safety and other important natural gas topics. It features prizes for audience members and is fun for all ages!

Get the Buzz on Energy Savings

Test your skills during this interactive group game. Be the first to buzz in with a correct answer to win a prize. It's a great team builder for all ages.

The Energy Drop (Plinko)

Another popular interactive presentation, the Energy Drop, modeled after the game Plinko, features a unique game board with information on a variety of ways to save energy and money. It's both entertaining and educational, and yes – there are prizes!

Family Feud

"Survey Says" ... based on the popular TV show, contestants work together to name the most popular answers to survey questions. It's fast, fun and filled with great tips along the way. We'll even customize the theme to suit your group's interest. And did we mention – there are prizes!

Staying Comfortable in Extreme Temperatures

Learn how weather can affect your body and ways to protect yourself from extreme temperatures. This program will help you recognize the signs of heat stress and hypothermia and how to prevent them.

Energy Assistance Programs

Learn which programs are available for customers facing financial difficulties and how to apply for energy assistance.

Carbon Monoxide and Natural Gas Safety

Learn how to avoid the dangers of carbon monoxide (CO) with this 17-minute video focusing on the common causes of CO buildup in homes and the symptoms of CO poisoning. This program also covers safety measures taken by the natural gas industry and NJNG.

We will gladly customize a presentation to meet the needs of your group.
